### **Green Compliant 6~12 Watt Wall-Mount Switchers with Interchangeable AC Plugs**

APS announces its new 2K6S Series of Wall-Mount Switching Power Supplies that consume minimal AC current under no load conditions for Green Power Compliance. The AC Plugs are easily interchangeable with the press of a button and a ¼ turn of the plug.

The 2K6S Series feature Universal AC Input for worldwide operation and deliver 6~12 Watts of output power with single output voltages of 3.3 / 5 / 12 / 15 / 24 VDC (customer specific voltage set-points available upon request). The supplies come in a small Wall-Mount Package measuring only 2.28 x 1.22 x 1.38 and offer four different AC Plugs for mating with AC Outlets throughout North America, Asia, Europe and Britain. These supplies offer a wide range of standard DC Output Connections to support customer specific connection requirements. Over-Voltage, Over-Current and Over-Temperature protection circuits are standard for reliable performance in sensitive applications. All standard models are qualified to UL/cUL60950-1 / TUV60950-1 / PSE / JET Safety Standards and bear the CE Mark. Units are RoHS Compliant and meet Level B Emission Standards of both EN55022 and FCC Part 15 Subject J.

Units are available now with complete specification available on the web at [www.advpower.com](http://www.advpower.com). Volume pricing for the power supply and 4 different AC Plugs is as low as \$5.00 in OEM Quantities. Please contact [sales@advpower.com](mailto:sales@advpower.com) for both sales and technical support.
