### **24-48 Watt Desktop Power Supplies are CEC/Green Power Compliant**

APS is proud to announce the release of the APS42EG Series of CEC / Green Power Compliant Desktop Switching Power supplies offering 24 - 48 Watts of Power measuring only 4.33 x 2.28 x 1.27". These supplies are ideal for applications in any mobile electronic application such as LCD monitors, notebook computers, networking, printers, test equipment, and much more.

These external / desktop power supplies feature Universal AC Input with single outputs ranging from 12~24 VDC. These supplies consume less than 0.256W of input power under no load conditions to comply with CEC / Green Power initiatives. Packing up to 48 Watts in only 4.33 x 2.28 x 1.27", these supplies provide an uncommonly high power density with other standard features including 2 and 3 prong AC Inlet options; Over-Voltage Protection; Over-Current Protection; and Short Circuit Protection. These supplies are safety certified to UL60950-1 / TUV EN60950-1 and bear the CE Mark (Low Voltage Directive) for applications throughout the world with FCC / EN55022 Class B Emissions. For greater flexibility, these supplies may be configured with a wide selection of standard DC Output Connectors.

All supplies are in full production with evaluation quantities available from stock and production deliveries of less than 8 weeks. Specifications are available for download from <http://www.advpower.com/aps42eg.pdf>. Pricing is as low as \$19.95 for 1000 piece quantities. Contact APS at 925-734-3060 or [sales@advpower.com](mailto:sales@advpower.com) for sales & technical support.
