Ultra-Compact 5~55 Watt Wall-Mount Switchers

compliant to CEC / Energy Star Requirements

APS announces its new KSAF Series of 5~55 Watt Wall-Mount Switchers that draw minimal input power under no load conditions to comply with new appliance energy efficiency standards that are going into effect in January, 2007.

The KSAF series offer a continuous output power ranges of 5 / 7.5 / 10 / 25 / 55 Watts with output voltages ranging from 3.3~48 VDC. These low-cost power products are ideal for mobile products and battery charging applications. The supplies feature Universal AC Input, Regulated DC Outputs and High Efficiency Operation. The supplies have been qualified to meet IEC 60950-1 International Safety Approvals including UL / CSA / TUV / PSE / CCC / BEAB for applications throughout the world. Radiated / Conducted Emissions are compliant to EN55022 Class B & FCC Level B Standards.

Units are available now with complete specification available on the web at www.advpower.com. Volume pricing is as low as \$2.99 for 5 Watt Single Output Models. Please contact sales@advpower.com for both sales and technical support.
