### **120 Watt Desktop measures only 6.3 x 2.56 x 1.71”**

Power specialist Advanced Power Solutions (APS) announces the release of the it's APS100/120EST series of Desktop Switching Power Supplies featuring a miniature size of only 6.26 x 2.56 x 1.71”.

By utilizing Synchronous Rectification for high efficiencies up to 88% and a patented enclosure design for improved heat dissipation, APS was able to pack 120 Watts of output power into the high density 6.26 x 2.56 x 1.71” package. The supply features Universal AC input, CEC Level IV Compliance, Class B Emissions and worldwide safety approvals including UL/cUL60950-1 / EN60950-1 and bear the CE Mark (LVD). These power supplies offer an IEC-320 C14 AC Inlet with an LED for Power-On Indication. Standard models are available with outputs ranging from 12~24 VDC. Consult APS for other output voltages that are in development and soon-to-be-released 150 Watt models in the same form factor.

These supplies are available now with evaluation quantities on-hand with production deliveries of less than 8 weeks. Specifications are available for download from <http://www.advpower.com/aps100-120est.pdf>. Pricing is as low as \$29.00 in OEM quantities. Contact APS at 925-734-3060 or [sales@advpower.com](mailto:sales@advpower.com) for sales & technical support.
